

ALAVIJA DEFENSE & GOVERNMENT

Alavija Group · Company profile

TLP: CLEAR

For ministries, armed forces, police, municipalities and public companies we build secure web platforms, apps and campaigns. From Montenegro, in three languages, with full discretion.

Core competencies

Secure web platforms and portals

Citizen portals, internal platforms and institutional websites. Fast, accessible and protected to current standards.

Apps for the field

Mobile and web apps for internal communication, logistics, records and reporting, including offline use.

Recruitment and public information campaigns

Campaigns for recruitment and public information, across social media, Google and the web.

Training and learning video

Short videos for training, procedures and security awareness, AI-assisted, in several languages.

Process digitalization

From paper to digital workflow: forms, approvals, appointment booking and archives, with clear access rights.

Multilingual content

Montenegrin, English and German for cooperation with NATO allies and international partners.

Differentiators

- Local partner in Montenegro, working in Montenegrin, English and German
- Everything in-house: web, apps, video and campaigns, no subcontractors
- Discretion by principle: NDA, need-to-know team, no public references
- Fast delivery in phases, with a written proposal and clear deadlines

Engagement and confidentiality

- **NDA before the first call.** We sign a non-disclosure agreement before any details are exchanged.
- **Need-to-know team.** Only a small, named team works on the project. Nobody else has access.
- **Encrypted communication.** We agree a secure channel for documents and messages.
